

## Phoenix Industries – Junior Engineer (Plastic) – Colombo 03

Imagine what **YOU** could do here! At Phoenix, great ideas have a way of becoming great products, services, and customer experiences very quickly. Bring passion and dedication to your job and there's no telling what you could accomplish.

### Company Profile:

Are you a driven and technically skilled engineer eager to expand your expertise in Industrial and Product Design? This is your opportunity to be part of Phoenix's dynamic team, working closely with our Design Lead and Creative Director during an exciting brand refresh.

We are looking for a highly motivated **Junior Engineer** to contribute to our product design team, focusing on plastic product development, injection mold drawing review, and project coordination. This role offers hands-on experience in design, simulation, and manufacturing processes, providing a solid foundation for career growth.

### The Role

- Assist in product design across all business segments.
- Support plastic product development from concept to production.
- Utilize CAD tools to create detailed designs and 3D models.
- Review and validate injection mold drawings.
- Track project timelines and coordinate across design, production, and quality teams.
- Conduct stress and structural simulations to optimize product performance.
- Maintain detailed project documentation and reporting.

### Who we are looking for

- Bachelor's degree in mechanical engineering from a recognized university.
- 0-2 years in plastic product design, molding, or related fields (Fresh graduates are welcome).
- Basic understanding of plastics and injection/blow molding processes.
- Proficiency in CAD tools (e.g.: Fusion, VISI).
- Knowledge of mold flow analysis and stress simulation tools.
- Strong communication & collaboration skills. (Fluent in English)
- Analytical mindset with keen problem-solving abilities.
- Ability to manage multiple tasks and meet deadlines.
- Self-motivated and have initiative to propose new ideas, concepts.
- Be cool & have an open mindset.
- Be curious and constantly challenge the established.
- Be open and fearless - change requires bravery.
