### The Role

We are looking for a highly motivated and experienced **PVC Production Assistant Manager** to join our team. The successful candidate will be responsible for assisting the PVC Production Manager in planning, coordinating, and executing all aspects of our PVC production process. This includes developing and implementing production schedules, managing inventory, overseeing quality control, and ensuring that all products meet our high standards.

### Key Responsibilities

- Plan and coordinate production activities to ensure that the company meets its goals and objectives.
- Develop and implement production schedules and ensure that they are adhered to.
- Manage inventory levels and ensure that all necessary materials are on hand when needed.
- Oversee the quality control process and ensure that all products meet our high standards.
- Identify and address any production problems or challenges.
- Manage and supervise production team members.
- Ensure smooth communication and coordination with other departments.

### Requirements

- Bachelor's degree in engineering (production or mechanical) from a reputed university.
- 2+ years of experience in PVC production at a managerial level.
- Strong knowledge of PVC production processes and best practices.
- Excellent problem-solving and analytical skills.
- Strong leadership and communication skills.
- Ability to work independently and as part of a team.
