

Intern – Assembly Operations | Pannala

At our company, we believe that every small idea has the potential to **spark** something **extraordinary**. We foster an environment where creativity, passion, and innovation come together to fuel growth. When you join us, your unique **spark** isn't just encouraged - it's celebrated! Together, we create a workplace where every contribution, big or small, **transforms** into something remarkable.

The Role

We are looking for a motivated and detail-oriented **Assembly Operations Intern** to join our Assembly Plant team. This role offers valuable hands-on exposure to plant operations, process monitoring, and productivity improvement initiatives. The selected candidate will primarily support the monitoring and enhancement of packing operations by analyzing daily output, identifying inefficiencies, and assisting in implementing process improvements to strengthen overall plant performance.

Key Responsibilities

- Monitor daily packing output and identify operational gaps or inefficiencies.
- Conduct basic time studies for packing activities.
- Measure cycle time per unit and compare results against standard times.
- Analyze data and propose improvement ideas to enhance productivity.
- Track and evaluate before-and-after results of implemented improvements.
- Support the rack allocation project in coordination with the Assembly Plant Supervisor.
- Maintain accurate records and reports using MS Excel.

Requirements

- Undergraduate or diploma student in Engineering, Manufacturing, Operations Management, or a related field.
- Proficiency in MS Excel (data entry, formulas, and charts).
- Willingness to work on the shop floor and collaborate with plant operators.
- Strong analytical mindset with attention to detail.
- Proactive attitude with a willingness to learn in a fast-paced environment.
