

## Recycling Process Executive | Pannala

At our company, we believe that every small idea has the potential to **spark** something **extraordinary**. We foster an environment where creativity, passion, and innovation come together to fuel growth. When you join us, your unique **spark** isn't just encouraged - it's celebrated! Together, we create a workplace where every contribution, big or small, **transforms** into something remarkable.

### The Role

We are seeking a motivated and detail-oriented **Recycling Process Executive** to support and monitor day-to-day recycling plant activities. This role plays a key part in ensuring efficient plastic recycling processes, maintaining operational standards, and supporting continuous improvement initiatives across the plant.

### Key Responsibilities

- Monitor and support day-to-day recycling plant operations.
- Ensure proper plastic waste segregation and recycling processes.
- Assist in controlling process parameters and production output.
- Coordinate with operators and maintenance teams.
- Maintain basic production, quality, and process records.
- Ensure compliance with safety, environmental, and quality standards.
- Support continuous improvement in initiatives in recycling efficiency.

### Requirements

- Diploma or certificate in Engineering, Manufacturing, or a related field
- Knowledge of plastic recycling processes is preferred
- Knowledge of polymers and plastic materials will be an added advantage
- Experience in a recycling or manufacturing environment is an advantage
- Basic computer skills and reporting ability
- Good communication and teamwork skills
